### Statement of WPC regarding the recent attack by the European Parliament on Cuba

The WPC rejects vehemently the recent resolution adopted by the European Parliament (EP), in which Cuba is accused for “violation of Human rights” on the occasion of the death of a convicted Cuban criminal, who went on hunger strike.

The resolution of the EP is immoral and full of political motivation, it proofs once again the role of the E.U. and its interference in the internal affairs of so many countries, with the aim to destabilize and finally overthrow the Socialist government of Cuba.

It is one more fierce intervention of imperialist nature which goes hand in hand with the US plans against Cuba, which have not changed with the new US administration. The E.U. is not entitled to teach to any people democracy and human values, especially not to the Cuban people.

As long as the E.U. is maintaining its “Common Position” against Cuba, their actions are determined by hypocrisy and double moral.

At the same time while accusing Cuba, the EP is keeping silent on the Concentration Camp the USA maintains in Guantanamo on Cuban soil and where crimes and torture are being committed day by day. The EP is not daring to comment on the ongoing US aggressions against Cuba, the economical blockade and the unjust imprisonment of the Five Cuban Patriots in the USA.

The same forces in the EP which denounce Cuba are guilty of crimes against humanity in Yugoslavia, Afghanistan and Iraq through their respective governments.

The WPC expresses its sincere and firm solidarity with the Cuban people and its Revolution. We demand the immediate cease of the hostilities against Cuba and the lifting of the blockade. We demand the immediate release of the Five Cuban Patriots from the US prisons. Their imprisonment constitutes an act of political revenge of the USA against Cuba.

Socialist Cuba was and still is an example for the peoples of the world, which strive for a world where the masses of working people and peasants in each country will become the masters of the wealth they are producing. It is inspiring today hundreds of millions of people all over the world for its achievements in many fields of science, education and health.

The provocative resolution of the EP on Cuba is not expressing the feelings of the vast majority of the peace loving people in the E.U. and the world. Imperialism may have many faces and instruments to impose its domination, but it is not invincible.

Cuba has the peoples of the world on its side and shall win!
